First we thank every one staff of Fortis Malar Hospital, because we came here in very critical case. My heart was very weak only working 15% but they managed my health very fast and now we are very well, because of Dr Balakrishnan.

After this I thanks very much to my friend Mohd. Mustaqem who suggested me to this Hospital and Syed Zia Akhter and Jayaraj and team of International Services team. And very specially to the Dr Balakrishnan and his team we had treated me very friendly, and gave me a new life.
