

I am  
~~From~~ Ayman Hammoud Alskhyeineh ' Jordan citizen,  
33 years old, married and having two kids.

My heart problem started on December 2008,  
I was having breathing difficulty and tiredness  
most of the time. I was taking medications  
for my heart problem since then till August 2014,  
when I started getting sudden syncopes. I  
was admitted to the health city in Amman  
and doctors there put a pacemaker for me.  
my body started collecting fluids specially in my  
stomach and I had to go to hospital to drain  
up to 5L fluids every 5 to 10 days.  
Doctors advised me that I need heart  
transplantation surgery urgently. One of my doctors

were advised me to go to India. With the help of Dr. Khaleel, one of the hospital's facilitators, I came to Fortis Malar Hospital on 23rd June along with my brother, to do a heart transplant surgery under Dr. Balakrishnan. I was very sick and needing heart transplant urgently.

They started doing all pre-transplant work up immediately.

After finishing all investigations, I was listed in the state transplant registry for heart transplantation. At the same day, on 28th June, a suitable donor was identified. I was taken up for heart transplantation after explaining all due risks to me.

After transplant was finished, I was shifted to CCICU. I stayed there for almost 2 weeks, then shifted to the ward where I stayed for another 10 days, then I've got discharge on 21st of July.

When I got discharged, I was feeling much better than before the surgery. All body fluids

were slowly drain, there was no breathing difficulty, everything was better.

8 days later, I was admitted to the hospital again for heart biopsy and thank God all reports showed no rejection.

I am so happy I came to Fortis Malar Hospital. Dr Balakrishnan team is an excellent team. I am so thankful for him and for all of his team members. All the hospital staff are excellent also. I would refer any patient to Malar Hospital. They taking a good care with the patient.

Also special thanks to the International Patient Service Department, headed by Mr. Syed Zia Akhtar, who did a huge efforts with us facilitating every thing for us and make us so comfortable from the day we reached till this moment.

Thank you Fortis Malar Hospital.
