I am Imad Halawi Syrian nationality (55) years old I am patient with heart failure - since (5) years I decided to have a major operation at that time in Lebanon and they called it (LVAD) I did and it was great but with machine on my back all the time for (24) hours - until I met Dr. Feras in Abu Dhabi Cleveland clinic, and he told me about heart transplant in India in Chennai - After we talked with the hospital team and with Mr. Syed Riaz - he is the international marketing manager then I agree to travel to India and do the heart transplant as soon as possible - when I reach there in Chennai in Fortis Malar they met me and they treat me well and they told me will do the operation for me soon - I wait for (45) days until they found a very good heart for me and they did the operation and it was successful and great and I am back to my normal life as before - Thank God.

Thanks Dr. Bala Krishnan
" Dr. Suresh RAO
" Dr. Ravi Kumar
" For all the doctors and for the team
" For Mr. Suresh prather and pesella.
" For Mr. Syed Riaz -

Thanks For Fortis Malar hospital - Imad Halawi
